Experience

- | | |
|----------------------------|---|
| Dec 2014 - Present | Senior Developer at POP Inc. I'm involved in both the iOS app and the API backend. My responsibilities have included updating our backend architecture to seamlessly scale with the rapidly growing needs of our clients. |
| Jun 2013 - Nov 2014 | iOS Developer at RokketLaunch. Touching on all aspects of the apps, but my main focus has been custom UI, including smoothly scrolling media-heavy content, and a smart text view stack with rich text editing. |
| Apr 2011 - Jun 2013 | iOS Developer at HipGeo. I worked on all aspects of the app, including UI, maps, network, GPS, and storage. We utilized a number of 3rd party libraries including Three20. |
| Nov 2009 - Apr 2011 | Developer at Textopoly, a mobile marketing agency. I worked with high-profile clients including Google, Yamaha, Nestle, and more. Duties included building an iOS app, mobile websites, and a custom SMS platform. |
| May 2008 - Apr 2009 | New Media Developer at BYU Broadcasting. Programming web interfaces as well as back-end software. Named Employee of the Year. |

Education

- | | |
|--------------------|---|
| August 2009 | Bachelor of Science in Computer Science, Animation Emphasis from Brigham Young University. Won the 2009 Demo Day capstone competition with an iPhone app. http://bit.ly/ZOXNdQ |
|--------------------|---|

Skills

I'm primarily an iOS developer, but I've been known to jump in where help is needed. I've launched products utilizing the likes of:

| | |
|---------------------|---------------------|
| Tomcat | Amazon Web Services |
| Go | Git, SVN |
| Angular.js, Famo.us | CocoaPods |
| LAMP | Photoshop |
| ASP .NET | Sketch |
